

Another Minute Of Your Time

Verse 1:

**If I could pause just a moment in time
I'd try to show you that I'm doing fine
I'd want to listen to hear your sweet voice
And hold you close and never let go**

**Though you went suddenly and left me alone
I sense your presence and can't let you go
Things left unsaid should have been told
Let's turn back time for a moment or two**

Chorus:

**If I could have just another minute of your time
I would take it in and make it all mine
But all I can do now is remember the good times
And keep you in my heart and never say goodbye**

Verse 2:

**If I could pause just a moment in time
I'd say the things that have been on my mind
I'd take the time to show you I still care
Open up my heart and my soul I would bare**

**We'd laugh and talk and take a chance on love again
I'd say I love you and want you in my life
Just a special moment to make one more memory
Giving me this time would be my fantasy**

Chorus:

**If I could have just another minute of your time
I would take it in and make it all mine
But all I can do now is remember the good times
And keep you in my heart and never say goodbye**
