

Different Phase

Verse 1:

**I used to see you everywhere
In the stars and in the air
But now my life has taken a turn
And my heart no longer yearns**

**We used to be so intertwined
But now our paths have realigned
I'm on a journey of my own
And you're no longer the cornerstone**

Chorus:

**My life is at a different phase
And I'll never forget your face
You'll always hold a special place
But my gaze has found a new space.**

Verse 2:

**I'll always cherish what we had
But now it's time to leave the past
I'm looking to the future now
Without you, but that's okay somehow**

**I'm walking away from yesterday
Trying to find a better way
My life is at a different phase
Where you no longer catch my gaze.**

Chorus:

**My life is at a different phase
And I'll never forget your face
You'll always hold a special place
But my gaze has found a new space.**
