

## **First Kiss**

**I remember that first moment when we met  
So clear in my mind something I will not forget  
The warmth of your lips pressed into mine  
The moment was so perfect and divine**

**I still remember sharing our first kiss  
Oh my God do you recall such bliss  
Our hearts were beating in such perfect time  
We vowed we'd be together for all time**

**Those summer nights, that were so sublime  
Sharing stories, laughs, drinking lots of wine  
We shared our dreams and made them all come true  
A bond that would last for me and you**

**I still remember sharing our first kiss  
Oh my God do you recall such bliss  
Our union was intense, our hearts secure  
The way we felt that day is still so pure**

**I still remember fire in your eyes  
The way you looked at me, I was mesmerized  
Back then we were young and our hearts were strong  
I hold in my heart where our love belongs**

**I still remember sharing our first kiss  
Oh my God do you recall such bliss  
The sparks were flying like stars in the sky  
I pinch myself and sometimes wonder why**
