

Just Turn The Radio On

(Verse 1)

**From the morning's first light, to the evening's gentle sigh
Your image dances in my mind, a star in my sky
Every chord I strike, every lyric I write
Is a love letter to you, in the pale moonlight**

(Chorus)

**Just turn the radio on, and you can hear my songs
I'm singing love songs, about you all night long
From the city streets, to the countryside
My melodies whisper, my heart can't hide**

(Verse 2)

**I poured my heart into each note, every lyric, every rhyme
Hoping my music reaches you and makes your day shine
So turn it up real loud, let the rhythm move your feet
Let my music wash over you, it will make my life complete**

(Chorus)

**Just turn the radio on, and you can hear my songs
I'm singing love songs, about you all night long
From the city streets, to the countryside
My melodies whisper, my heart can't hide**

(Verse 3)

**Maybe you're driving down the road and you're lost in some deep thoughts
Maybe you're dancing in the bedroom, feeling carefree and hot
Maybe you're just sitting back, letting the world pass you by
Whatever you're doing, let my music be your guide**

(Chorus)

**Just turn the radio on, and you can hear my songs
I'm singing love songs, about you all night long
From the city streets, to the countryside
My melodies whisper, my heart can't hide**
