

She Was My First True Love

Verse

We met in high school. We were both sixteen.
She had the bluest eyes I'd ever seen
The first time I saw her, I walked the other way
But, we shared some classes throughout the day

I finally got the nerve to approach her in the hall
She gave her number and asked me to call
We started dating and she swept me away
We'd meet for lunch nearly every day

Chorus

She was the one, I waited for
Always the one I would adore
She seemed to be sent from up above
She was my first true love

Verse

She was a cheerleader and I was in the band
At the football games, I'd watch her from the stands
When games were done, we'd meet up for a date
Anticipation grew, I could hardly wait

For two great years, our love grew and grew
But, planning for college, I somehow knew
My plans were local and for the best
She had her eyes on a college way out west

Chorus

She was the one, I waited for
Always the one I would adore
She seemed to be sent from up above
She was my first true love
