

## **Songs Of The Good Old Days**

### **Verse 1:**

**In the golden light of the setting sun  
We gather 'round the fire, one by one  
Singing songs of the good old days  
Echoes of a simpler time, a different phase**

**Memories flood in, like a gentle breeze  
Whispering secrets through the rustling trees  
We raise our voices, in harmony  
A chorus of love, for all to see**

### **Chorus:**

**Turn back the time, when we first met  
Simpler times, we won't forget  
We'll live our best times, the carefree ways  
And sing those songs of the good old days**

### **Verse 2:**

**Those days may be gone, but the songs remain  
Each note a reminder, of joy and pain  
We'll keep them alive, in our hearts they'll stay  
The songs of old, will never fade**

**So let's raise our glasses, and sing along  
To our favorite songs, forever strong  
They may just be words, but they hold much more  
A connection to the past, a love to explore**

### **Chorus:**

**Turn back the time, when we first met  
Simpler times, we won't forget  
We'll live our best times, the carefree ways  
And sing those songs of the good old days**
