

Not The Girl

Verse 1:

**She used to be the light in my life
Always there to chase away my fears
But now that light has dimmed and gone
And I'm left with nothing but tears**

Chorus:

**She's not the girl I used to know
The one who held my heart so tight
She's changed, and I don't know why
But I can't help but miss her tonight**

Verse 2:

**I remember when we were so in love
Nothing could tear us apart
But now it seems we are worlds away
And I don't know where to start**

Chorus:

**She's not the girl I used to know
The one who held my heart so tight
She's changed, and I don't know why
But I can't help but miss her tonight**

Bridge:

**I wish I could turn back time
To when everything was alright
But now she's just a stranger
And it hurts more than I can fight**

Chorus:

**She's not the girl I used to know
The one who held my heart so tight
She's changed, and I don't know why
But I can't help but miss her tonight**
