

Nothing Else Matters

Verse 1:

Lost in my thoughts, my mind is a mess
Worries and fears, causing so much distress
But in this moment, I let it go
Cause when you're here, nothing else matters, I know

Chorus:

Nothing else matters
When your love surrounds me
Nothing else matters
When your arms are around me
In this moment, we're all that's real
And nothing else matters, that's how it feels

Verse 2:

Life can be tough, and love can be hard
But with you, I found my guiding star
In your arms, I feel so secure
Cause when you're here, nothing else matters, I know

Chorus:

Nothing else matters
When your love surrounds me
Nothing else matters
When your arms are around me
In this moment, we're all that's real
And nothing else matters, that's how it feels

Verse 3:

Through highs and lows, you've been my constant
In a world ever changing and distant
But with you, I have all I need
Cause when you're here, nothing else matters, I know

Chorus:

Nothing else matters
When your love surrounds me
Nothing else matters
When your arms are around me
In this moment, we're all that's real
And nothing else matters, that's how it feels
