

You're Simply The Best

(Verse 1)

**In a world full of faces, a sea of names and dates
I found my heart's true meaning. A love that never fades
From the moment we first met, I knew that you were special
You're simply the best. No one can take your place**

(Chorus)

**You're simply the best
Above all the rest
There was never a doubt
From every corner I'll shout
I mean everything I say
Wouldn't have it any other way
We always knew we'd pass the test
Because you're simply the best**

(Verse 2)

**I've searched high and low, for a love that's true and strong
But nothing compares, to the beauty of your song
With every beat of my heart, your love shines through
You're simply the best. Forever I'll love you**

(Chorus)

**You're simply the best
Above all the rest
There was never a doubt
From every corner I'll shout
I mean everything I say
Wouldn't have it any other way
We always knew we'd pass the test
Because you're simply the best**
