

Time After Time

(Verse 1)

**The clock ticks on, another day gone by
But every second, your memory flies
Across the miles, like a whisper in the wind
A constant echo, of a love that won't end**

(Chorus)

**Time after time, I can't keep you off my mind
Your smile, your laugh, your essence is wildly intertwined
Every moment brings the pain of longing oh so deep
Time after time, my heart refuses to sleep**

(Verse 2)

**The sun sets low, painting the sky in gold
But all I see is your face, a story untold
Of promises whispered, of dreams we shared
A love that burned bright, though now it's impaired**

(Chorus)

**Time after time, I can't keep you off my mind
Your smile, your laugh, your essence is wildly intertwined
Every moment brings the pain of longing oh so deep
Time after time, my heart refuses to sleep**

(Verse 3)

**I know that it's foolish, this longing I feel
To turn back the clock and make our love real
The past is behind us, a phantom in the night
I'm left with the emptiness, a love lost from sight**

(Chorus)

**Time after time, I can't keep you off my mind
Your smile, your laugh, your essence is wildly intertwined
Every moment brings the pain of longing oh so deep
Time after time, my heart refuses to sleep**
