

What About Us

Verse 1:

**Do you remember the days
When we were young and free
We'd stay up all night
Just you and me**

**We'd laugh and we'd dance
Underneath the stars
Our love was so pure
Nothing could tear us apart**

Chorus:

**What about us and the things we used to do
The memories we made, they'll never be through
What about us, can't we go back in time
To when our love was all that mattered, a time so divine**

Verse 2:

**We'd take long drives
With the windows down
Singing our hearts out
To every song in town**

**We'd make promises
That we'd never break
But now it feels like
Those vows were all fake**

Bridge:

**I miss the way you held me tight
And whispered 'forever' in my ear
But now it seems like we've lost the fight
Our love is just a distant fear**

Chorus:

**What about us and the things we used to do
The memories we made, they'll never be through
What about us, can't we go back in time
To when our love was all that mattered, a time so divine**
