

## **Lonely Christmas Morning**

### **(Verse 1)**

**The snow is falling outside my window  
Painting a Christmas scene  
The smell of pine and cinnamon  
Are some scents that fill the air**

**But something's missing, while I'm reminiscing  
Of days that have slipped on by  
I miss your presence in this place  
And I wish you were back here with me**

### **(Chorus)**

**Wishing you could be here with me  
On this lonely Christmas morning  
To share the laughter, love and stories  
Oh, how I wish you were right here with me**

### **(Verse 2)**

**I see the lights on the Christmas tree  
Twinkling in the evening glow  
Their colors bright, but my heart's not right  
Without you, it's missing more**

**Memories of laughter, midnight chatter  
Echo through this empty house  
I hold onto moments, wish they weren't fleeting  
You're the one I need the most**

### **(Chorus)**

**Wishing you could be here with me  
On this lonely Christmas morning  
To share the laughter, love and stories  
Oh, how I wish you were right here with me**
