

## **You Said We Would Be Together**

### **(Verse 1)**

**Through the nights so cold and lonely, I feel your spirit near  
In the whispers of the wind, your voice is all I hear  
Memories of laughter, moments intertwined  
Our bond so strong, unbreakable, it stands the test of time**

### **(Chorus)**

**You said that we would be together  
'til the end of time  
I said that you'd be mine  
You said that we'd be fine**

**I know you are still loving me  
In your heart you care  
Though distance lies between us  
Our love will always be there**

### **Verse 2)**

**Every sunset, every dawn, your love is my guide  
With every beat of my heart, I know you're by my side  
Despite the miles between us, our souls remain as one  
Our journey's far from over, our love has just begun**

### **(Chorus)**

**You said that we would be together  
'til the end of time  
I said that you'd be mine  
You said that we'd be fine**

**I know you are still loving me  
In your heart you care  
Though distance lies between us  
Our love will always be there**
