

I Tried Replacing You

(Verse 1)

**I watch the world spin like slow-motion days
Every stranger's face masked in a haze
You were my anchor, but now I drift alone
Lost in the crowd, feeling so unknown**

(Chorus)

**I tried replacing you with faces new
But they never came close to the love I knew
The memories linger, like a haunting song
I tried replacing you, but it felt so wrong**

(Verse 2)

**I remember the nights, your hand in mine
A love never questioned. It happened all the time
But life's a journey and our paths soon changed
Now I find myself, feeling so strange**

(Chorus)

**I tried replacing you with faces new
But they never came close to the love I knew
The memories linger, like a haunting song
I tried replacing you, but it felt so wrong**

(Verse 3)

**Love's not a puzzle, with pieces to trade
It's the moments we lived and memories we made
I tried replacing you, but it can't be done
You were my heart and you were the one**

(Chorus)

**I tried replacing you with faces new
But they never came close to the love I knew
The memories linger, like a haunting song
I tried replacing you, but it felt so wrong**
