

Gotta Spend It

(Verse 1)

**Got a couple bills in my hand today
Burning a hole, can't let them stay
Life's too short to sit and save
I'm living life large, gonna misbehave**

(Chorus)

**I get a little money, and I gotta spend it
Every last dime, yeah, I'm gonna send it
Living for now, don't care what's next
Happiness is my next big paycheck**

(Verse 2)

**Treating the guys, yeah, drinks on me
We're tearing it up like it's meant to be
From neon lights to the morning sun
The night's our stage till the show is done**

(Chorus)

**I get a little money, and I gotta spend it
Every last dime, yeah, I'm gonna send it
Living for now, don't care what's next
Happiness is my next big paycheck**

(Bridge)

**The clock is ticking, no time to wait
I'm chasing joy, not saving face
Money's just paper, can't hold me down
I'm building dreams all around this town**

(Chorus)

**I get a little money, and I gotta spend it
Every last dime, yeah, I'm gonna send it
Living for now, don't care what's next
Happiness is my next big paycheck**
