

Leaving This World

(Verse 1)

**I boxed up the knickknacks and dreams of mine
Letters from decades, I read one last time
The garden still blooms, though I won't be around
To see how the roses keep reaching the clouds**

(Chorus)

**I've been thinking about leaving this world
Not in sorrow, not in haste
Just in silence, with some grace
What I leave behind, I hope will unfurl
In the hearts of those I've loved
Like a whisper, not a word**

(Verse 2)

**I've trimmed down the clutter, the things I outgrew
Kept the old photo of me hugging you
I saved a love letter with a note so divine
"I'll love you forever, so glad you are mine"**

(Chorus)

**I've been thinking about leaving this world
Not in sorrow, not in haste
Just in silence, with some grace
What I leave behind, I hope will unfurl
In the hearts of those I've loved
Like a whisper, not a word**

(Verse 3)

**I left my old records, the ones that still play
The songs that knew me better than I could ever say
Take what still sings, leave what's turned to dust
Build your own life from true love and trust**

(Chorus)

**I've been thinking about leaving this world
Not in sorrow, not in haste
Just in silence, with some grace
What I leave behind, I hope will unfurl
In the hearts of those I've loved
Like a whisper, not a word**
