

We Were Just Friends

(Verse 1)

**We were just friends, no sparks, no schemes
Trading bad jokes and half-baked dreams
I brought you coffee and you stole my fries
Never guessed it was love in disguise**

(Chorus)

**Innocent moments, then time stood still
One touch rewrote the way we feel
Now we're slow dancing in the kitchen light
From "We Were Just Friends" to "You Are My Life"**

(Verse 2)

**We were just friends, or so we swore
Until your glance lingered a second more
You spilled your drink and I caught your grin
Who knew a grin could pull me in?**

(Chorus)

**Innocent moments, then time stood still
One touch rewrote the way we feel
Now we're slow dancing in the kitchen light
From "We Were Just Friends" to "You Are My Life"**

(Verse 3)

**We were just friends, then came that kiss
A stumble into something we couldn't miss
Now we're spinning through the years ahead
From café chats to vows we said**

(Chorus)

**Innocent moments, then time stood still
One touch rewrote the way we feel
Now we're slow dancing in the kitchen light
From "We Were Just Friends" to "You Are My Life"**
