

Champagne on the Nightstand

(Verse 1)

**We were tangled in laughter, silk and surprise
The room held its breath as the candles caught fire
A toast half forgotten, a bottle on edge
Then gravity whispered, and over it went**

(Chorus)

**Champagne on the nightstand, love in the air
Moments like this say we're perfectly paired
Not every spark needs a perfect cue
Just a stumble, some giggles and tangled in you**

(Verse 2)

**The bubbles kept dancing across the floor
Like the vows we had spoken, and so much more
No script, no cue, just the way that we move
Two hearts in rhythm, with nothing to prove**

(Chorus)

**Champagne on the nightstand, love in the air
Moments like this say we're perfectly paired
Not every spark needs a perfect cue
Just a stumble, some giggles and tangled in you**

(Bridge)

**Let the world chase its picture-perfect scenes
We've got spilled champagne and midnight dreams**

(Final Chorus)

**Champagne on the nightstand, laughter and grace
A memory etched in that one-time place
No need for polish, no need to pretend
We're messy, we're real, and I'd do it again**
