

Angels in My Life

(Verse 1)

**I broke down on the highway, no signal, no plan
A stranger pulled over, said, "I'll do what I can"
He changed my flat tire, gave a nod and a smile
Drove off like a ghost, as I sat there a while**

(Chorus)

**Thank God for angels who appear in my life
No robes, no wings...perfect timing and light
They show up in silence, or laughter, or tears
Hold me together through the hardest of years
Thank God for angels. I know who they are
Every one of them left a mark on my heart**

(Verse 2)

**I was far from the trailhead, the daylight near gone
No flashlight, no markers, just stumbling on
Then a voice through the trees said, "You're not all that lost"
She walked me back gently, like she knew what it cost**

(Chorus)

**Thank God for angels who appear in my life
No robes, no wings...perfect timing and light
They show up in silence, or laughter, or tears
Hold me together through the hardest of years
Thank God for angels. I know who they are
Every one of them left a mark on my heart**

(Verse 3)

**I was talking to shadows, just me and the night
No calls, no footsteps, no flicker of light
She knocked on my door with tears in her eyes
Said, "I don't know why, but I felt you tonight"**

(Chorus)

**Thank God for angels who appear in my life
No robes, no wings...perfect timing and light
They show up in silence, or laughter, or tears
Hold me together through the hardest of years
Thank God for angels. I know who they are
Every one of them left a mark on my heart**
