

## **Lovers Don't End Up As Friends**

### **(Verse 1)**

**We said we'd be easy, just taking it slow  
But every small silence cut deeper, you know  
We laughed like we meant it, we cried now and then  
But holding it lightly just broke us again**

### **(Chorus)**

**Lovers don't end up as friends  
We try to pretend, but the story just bends  
You walk out the door, and that's where it ends  
'Cause lovers don't end up as friends**

### **(Verse 2)**

**We said we'd stay close, maybe call now and then  
But seeing you smiling just cut me again  
We talked like we used to, but something had changed  
The pieces don't fit when the heart's rearranged**

### **(Chorus)**

**Lovers don't end up as friends  
We try to pretend, but the story just bends  
You walk out the door, and that's where it ends  
'Cause lovers don't end up as friends**

### **(Bridge)**

**We kept holding on to pieces we saved  
But love turns to silence in the space that we gave  
We wanted forever, but forever can't mend  
Lovers don't find their way back to friends**

### **(Chorus)**

**Lovers don't end up as friends  
We try to pretend, but the story just bends  
You walk out the door, and that's where it ends  
'Cause lovers don't end up as friends**
