

Nothing Left to Say

[Verse 1]

**I've walked these empty rooms, replaying every line
The things we said in anger, the ones we left behind
I trace the shape of memories that time can't wash away
But every quiet corner still whispers your name**

[Chorus]

**There's nothing left to say, the words all slipped away
I've been at wit's end, praying you might stay
I've shouted, I've whispered, I've broken in two
And when the silence settles... I miss you**

[Verse 2]

**I've tried to fill the hours, but the nights keep breaking through
The world keeps spinning forward, yet I'm still stuck on you
I reach for something certain in the dark you used to light
But all I find are shadows where you held me tight**

[Chorus]

**There's nothing left to say, the words all slipped away
I've been at wit's end, praying you might stay
I've shouted, I've whispered, I've broken in two
And when the silence settles... I miss you**

[Bridge]

**I ran from every feeling, but the truth keeps drawing near
You're the ache I can't outrun, the ghost I still hold dear
If I had one more moment, I'd say what's overdue
Not to change the ending... only tell you that it's true**

[Chorus]

**There's nothing left to say, the words all slipped away
I've been at wit's end, praying you might stay
I've shouted, I've whispered, I've broken in two
And when the silence settles... I miss you**
