

My Pretty Little Hippie Girl

[Verse 1]

**She's got flowers in her hair, blowing wild in the breeze
Tie-dyed colors swirl - like California seas
Sun-bleached curls dance, as she spins around the world
Oh, I'm falling for my pretty little hippie girl**

[Chorus]

**My pretty little hippie girl, barefoot in the sand
Laughing like the summer wind, while holding my hand
Ribbons on her wrists and sunlight in her smile
She makes the whole wide world feel easy for awhile**

[Verse 2]

**She's got peace signs painted on the back of faded old blue jeans
Sings along to sixties songs like she's living in a dream
Sandals on her feet and a heart that's open wide
And she loves the world so much it makes me wanna try**

[Chorus]

**My pretty little hippie girl, barefoot in the sand
Laughing like the summer wind, while holding my hand
Ribbons on her wrists and sunlight in her smile
She makes the whole wide world feel easy for awhile**

[Bridge]

**She doesn't need too much—just a blanket and the stars
A little patch of grass and that trusted old guitar
And when she looks at me, the whole world slows
She carries that sixties magic everywhere she goes**

[Chorus]

**My pretty little hippie girl, barefoot in the sand
Laughing like the summer wind, while holding my hand
Ribbons on her wrists and sunlight in her smile
She makes the whole wide world feel easy for awhile**

[Final Chorus]

**My pretty little hippie girl, barefoot in the sand
Laughing like the summer wind, while holding my hand
Tie-dyed heart beating to a far-off tambourine
She's the sweetest little dream I've ever seen**
