

## **It's Too Late For Roses**

**Chorus:**

**It's too late for roses  
It's too late to turn back time  
The days we shared are now just a memory  
It's too late for roses**

**Verse 1:**

**I once thought we had forever  
But now I can see it was never meant to be  
The time we had is gone  
I know I must move along  
There's nothing here for me**

**Chorus:**

**It's too late for roses  
It's too late to turn back time  
The days we shared are now just a memory  
It's too late for roses**

**Verse 2:**

**I used to think that love would last  
But now I know it was just a passing breeze  
The days that we shared are done  
Gone are all the nights of fun  
I'm moving on**

**Chorus:**

**It's too late for roses  
It's too late to turn back time  
The days we shared are now just a memory  
It's too late for roses**

**Verse 3:**

**We could have been together  
If only I'd known better  
That our time would soon be gone  
But now the time has passed us by  
All we have are sad goodbyes  
It's time we move on**

**Chorus:**

**It's too late for roses  
It's too late to turn back time  
The days we shared are now just a memory  
It's too late for roses**
