

Cinnamon Sky

[Verse 1]

You parked by the waterline
Windows down, your hand in mine
The sky went gold at the seams
And your laugh lit up my dreams

We didn't need a reason
Just your shoulder, my breathing
The day was slipping slow
And I didn't wanna go

[Pre-Chorus]

Hold me close
Watch it fade
Every color
On display

[Chorus]

Stay with me till the sky turns rose
Stay with me, don't let this go
Cinnamon sky, your arms around me
Cinnamon sky, that's where you found me
Stay with me till the sun sinks low
Stay with me, I want this slow

[Verse 2]

Your shirt caught the amber light
Salt on your skin, so bright
I traced the line of your grin
And the whole world folded in

A gull cried out over waves
You pulled me in, I swayed
No hurry in your kiss
Just the hush between us, this

[Pre-Chorus]

Hold me close
Watch it fade
Every color
On display

[Chorus]

Stay with me till the sky turns rose
Stay with me, don't let this go
Cinnamon sky, your arms around me
Cinnamon sky, that's where you found me
Stay with me till the sun sinks low
Stay with me, I want this slow

[Bridge]

If the night comes calling near
Let it wait, let it disappear
I've got your name on my tongue
And this fading flame still burning strong

[Final Chorus]

Stay with me till the sky turns rose
Stay with me, don't let this go
Cinnamon sky, your arms around me
Cinnamon sky, that's where you found me
Stay with me till the sun sinks low
Stay with me, I want this slow
Stay with me, till it all goes gold
Stay with me, I'm yours to hold
