

Same Old Tune

[Verse 1]

**You left your coat on my chair
Still smells like rain and your perfume
I pass your door by the stairs
Like it might say your name**

[Pre-Chorus]

**Every night falls the same and I do too
One small song in my head pulls me back to you**

[Chorus]

**It's the same old tune
That has me missing you
Same old tune
I play it through and through
Same old tune
And I can't turn it off
Same old tune
Keeps me feeling blue**

[Verse 2]

**Your coffee cup sits by the sink
Still has the crack on the blue rim
I caught a light coming from my phone
Reminds me of your old text again**

[Pre-Chorus]

**Every night falls the same and I do too
One small song in my head pulls me back to you**

[Chorus]

**It's the same old tune
That has me missing you
Same old tune
I play it through and through
Same old tune
And I can't turn it off
Same old tune
Keeps me feeling blue**

[Bridge]

**I try new roads, new rooms, new names, new views
But one old chorus still sounds like you**

[Chorus]

**It's the same old tune
That has me missing you
Same old tune
I play it through and through
Same old tune
And I can't turn it off
Same old tune
Keeps me feeling blue**
