

A Little Boy

[Verse 1]

When I was just a little boy, toys scattered on the floor
A moving truck rolled down the street, a girl moved in next door
Curly hair and summer eyes, she smiled without a care
And suddenly my quiet world felt brighter with her there

[Chorus]

Curly brown hair, a spark I can't forget
She changed my world the moment we met
Too shy to say a word, but I felt it anyway
She took my little heart in such a perfect way

[Verse 2]

We rode our bikes till streetlights glowed, we laughed the whole way home
Played games and whispered stories in a world we called our own
But time can be a thief of hearts. One day she had to go
And all the golden memories stayed living in my soul

[Chorus]

Curly brown hair, a spark I can't forget
She changed my world the moment we met
Too shy to say a word, but I felt it anyway
She took my little heart in such a perfect way

[Bridge]

Years have passed and seasons changed. We've gone our separate ways
But every now and then I drift back to those childhood days
I wonder if she thinks of me, or smiles the way I do
Remembering the little boy who only wished he knew

[Chorus]

Curly brown hair, a spark I can't forget
She changed my world the moment we met
Too shy to say a word, but I felt it anyway
She took my little heart in such a perfect way
