

Restless Heart

[Verse 1]

**They were young when they found each other
Walking the wilderness side by side
Shared the same love of music
Where their world felt quiet inside**

[Chorus]

**She had a restless heart, always chasing the sky
He kept the porch light burning, hoping maybe she'd come by
Some loves will stay steady, while some loves need to fly
And hers was always halfway gone before she said goodbye**

[Verse 2]

**She would leave when her heart felt crowded
Chasing something pulling from inside
He'd open his arms like nothing was broken
Trying hard to keep their love aligned**

[Chorus]

**She had a restless heart, always chasing the sky
He kept the porch light burning, hoping maybe she'd come by
Some loves will stay steady, while some loves need to fly
And hers was always halfway gone before she said goodbye**

[Bridge]

**He knew someday leaving would linger
Longer than nights she would roam
And when the silence finally settled
He learned how it feels being alone**

[Final Chorus]

**She had a restless heart, always chasing the sky
He kept the porch light burning, but she stopped coming by
Some loves will stay steady, while some loves need to fly
Now he's learning how to heal, and she's learning what she left behind**
