

**Look Over Your Shoulder**

**[Verse 1]**

**You walk right past me, lost in your stride  
I match every footstep, but you don't look beside  
You chase every moment, as if I'm not near  
I'm speaking in silence, hoping someday you'll hear**

**[Chorus]**

**Look over your shoulder  
I've always been here  
While your eyes wander elsewhere  
I refuse to disappear  
You keep moving forward  
Blind to what's near  
When you finally stop searching  
You'll still find me right here**

**[Verse 2]**

**I stood through your heartache, every rise, every fall  
You reached for the distance, never noticing at all  
I held every silence, every doubt, every fear  
You searched for an answer, while I always stayed near**

**[Chorus]**

**Look over your shoulder  
I've always been here  
While your eyes wander elsewhere  
I refuse to disappear  
You keep moving forward  
Blind to what's near  
When you finally stop searching  
You'll still find me right here**

**[Bridge]**

**I never asked for spotlight  
Never needed to be seen  
But I've loved you in silence  
The way it's always been**

**[Chorus]**

**Look over your shoulder  
I've always been here  
While your eyes wander elsewhere  
I refuse to disappear  
You keep moving forward  
Blind to what's near  
When you finally stop searching  
You'll still find me right here**
