

**This Day Will Come**

**[Verse 1]**

**As we embrace our silver days  
Counting years instead of miles  
I know a quiet road awaits  
Where one of us will walk alone**

**[Chorus]**

**You're my greatest story  
My truest friend  
The reason ordinary days felt like a gift  
If I'm the one who goes first  
Let no one dwell on sorrow  
Be sure the world hears our laughter  
Remember the life we built  
Happily, ever after**

**[Verse 2]**

**Don't dress the day in black for me  
Play the songs we danced to in the kitchen  
Tell the stories that made us laugh for years  
Carry the joy. it's the part of me that stays**

**[Chorus]**

**You're my greatest story  
My truest friend  
The reason ordinary days felt like a gift  
If I'm the one who goes first  
Let no one dwell on sorrow  
Be sure the world hears our laughter  
Remember the life we built  
Happily, ever after**

**[Bridge]**

**When that day arrives, don't fear the silence  
Love will linger long after footsteps fade  
Every moment we shared still lives within you  
A promise that even goodbye can't erase**

**[Chorus]**

**You're my greatest story  
My truest friend  
The reason ordinary days felt like a gift  
If I'm the one who goes first  
Let no one dwell on sorrow  
Be sure the world hears our laughter  
Remember the life we built  
Happily, ever after**
